

7 September 1961

MEMORANDUM FOR: Chief, TP&DS

SUBJECT: Visit to [ ]

REFERENCE: Trip Report (Los Angeles, California, 21-31 August 1961)

The [ ] Image Correlator was discussed with [ ]  
All the component parts are now in hand and the main optical train was undergoing a bench test. [ ] stated that work on this machine was put aside in order to complete work on a higher priority task. The monitor was not aware of this, but assumed that it was discussed when the Chief, TP&DS visited [ ] some weeks previously. [ ] (Washington Office) will contact the monitor when the Correlator is further advanced in assembly for testing.
